

Be Prepared!

Keep information about you and your family in a handy place such as the refrigerator, your wallet or glove compartment.

Make sure your house or apartment number is easy to read and well lit.

Keep medical and insurance information up to date:

- Name and address
- Date of Birth
- Social Security Number
- Doctor
- Medical History
- Medicines
- Allergies

Keep emergency numbers in a handy place (911/Poison Control) and teach everyone in the house how to access the numbers.
